DETAILED ACTION

Election/Restrictions

1. Applicant's cancellation of non-elected subject matter is noted with appreciation.

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-7, 10 and 11 remain rejected under 35 U.S.C. 103(a) as being unpatentable over EP 612,839 A for the reasons of record in the previous office action.

Allowable Subject Matter

4. Claim 9 remains objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Reasons are of record in the previous office action.

Response to Arguments

5. Applicant's arguments filed November 7, 2003 have been fully considered but they are not persuasive. Applicant argues that the amides disclosed in the EP are of high molecular weight, in contrast with those recited in the present claims. This is not persuasive because there is substantial overlap in the molecular weights of the disclosed and claimed materials. The smallest of the disclosed amides is the amide in

which R₆ is C₈, and both R₇ groups are H. This material has a molecular weight of 127, well within the ambit of what applicant has claimed. In the case where the claimed ranges overlap or lie inside ranges disclosed by the prior art, a *prima facie* case of obviousness exists. *In re Wertheim*, 541 F.2d 257, 191 USPQ 90 (CCPA 1976); *In re Woodruff*, 919 F.2d 1575, 16 USPQ2d 1934 (Fed Cir. 1990).

Applicant further argues that fatty amides will not be soluble in hydrofluorocarbons, so there is no expectation of success. This is not persuasive because the reference clearly states that the invention encompasses the use of fatty amides with the disclosed refrigerants and compatibilizers (p. 2, top).

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
